

TCC Abstract Submissions

The 9th annual Transforming Care Conference, “Carrying the Torch,” will take place on Thursday, October 10, 2024.

TCC brings together healthcare providers, researchers, activists, and community members who share a commitment to LGBTQ+ and HIV health equity. Abstract submissions may include presentations, workshops, and panel discussions related to HIV and LGBTQ+ Health Equity.

Tips for your TCC abstract

- Review the [TCC abstract guidelines](#) before you begin.
- Have your presentation prepared prior to writing your abstract. This will make it easier to summarize your presentation, and it prevents the need for editing after submission.
- Provide only the information necessary to explain and answer your research question.
- Keep language clear and concise. Avoid adjectives and scientific jargon.
- Review your abstract. Read it out loud and have someone review it.
- An abstract of a manuscript will follow the organization of your presentation, workshop, or panel discussion.

Abstracts for the 2024 Transforming Care Conference are due by **July 15**.
